ECSA's new facebook page

<https://www.facebook.com/ECSAcommunity>

Long awaited and finally happening – for this year's General Assembly, ECSA launches its very own facebook page thanks to the initiative of Florian Heigl and Daniel Dörler. We would like to invite you to share your Citizen Science experience, events and work on the ECSA facebook page so we can show how wide spread Citizen Science in Europe already is.

Social media action to launch the ECSA facebook profile

#CSinAction #myCSwish

We want to show the world how diverse and widespread citizen science in Europe already is, but we need your help for this!

- We invite everyone to share a **selfie** along with **your wishes for the Citizen Science future** on the ECSA Facebook page or your favourite social media platform using the hashtags **#mycswish** and **#ecsabcn**; e.g. from the photo spot at Disseny Hub Flor -2.
- We invite everyone to share a **picture** of yourself or of other people (please get their consent) **doing Citizen Science** and post it on the ECSA Facebook page or your favorite social media platform using the hashtags **#csinaction** and **#ecsabcn**.

Please make sure to use the mentioned hashtags because at the end of the ECSA General Assembly all posts across all major social media platforms will be presented on two social media tag walls.
