

Propose a working group

Working groups carry out the strategic work within ECSA. These are volunteer, member-led initiatives dedicated to developing and expanding citizen science. Through the working groups, ECSA supports the development of methodologies, building capacities and three interrelated key competencies:

- Promoting sustainability through citizen science
- Building a think tank for citizen science
- Developing participatory methods for cooperation, empowerment and impact

If you are interested in starting a new working group at ECSA, please fill out the information below and return the form to d.riemenschneider@ecsa.ngo and paul.sorrell@ecsa.ngo. Once received, your application will be processed and next steps will be communicated in a timely manner. Please be aware that only ECSA members can found and/or chair an ECSA working group.

For any questions or more information, contact [Paul Sorrell](#).

Required information	
Working group name:	
Chairs (2-4 individuals):	<ol style="list-style-type: none"> 1. 2. 3. 4.
